| The MAILING DATE of this communication app Period for Reply | ears on the cover sheet with the c | orrespondence address | | | |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). | | | | | |

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 10/24/05 has been considered and made of record.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 9-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goto (JP 2003-119578).
- 4. Goto teaches low-friction materials comprising CuO formed on a substrate (abstract, for instance). The films may be formed by the same method as disclosed in the subject specification, i.e., magnetron sputtering (Goto, Detail Description, paragraph 14). Further, Goto teaches that the films may be crystalline, and, thus, "oriented" as recited in claims 13 and 14. Goto fails to teach that the films have friction coefficients of 0.06 or less at both atmospheric and in a vacuum, as claimed. The single example in Goto teaches films having friction coefficients of 0.06 at atmospheric pressure (to one significant digit) and slightly greater than 0.06 under vacuum. However, to optimize the films of Goto to achieve a desired, low friction coefficient would have been obvious to one having ordinary skill in the art. Given the disclosure of Goto regarding the film composition and methods of making the films, such endeavor would involve

Art Unit: 1794

no more than routine experimentation and considered to be well within the level of ordinary skill in the art.

5. In light of the above, it is the Examiner's position that the present claims are obvious in view of Goto.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TIMOTHY M. SPEER whose telephone number is (571)272-8385. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Keith D. Hendricks can be reached on 571-272-1401. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
